

SAMUEL MACIEL

I am capable of many things. I don't have the years and years of experience but I am young and looking to get started. I am a fast learner and can easily grasp new ideas, thoughts, and procedures. I would say that I am talented, but talent is everywhere, I would like to focus on my determination. Talent alone is frugal. But talent and determination together... that is unstoppable. I need the money, but I want the work to earn the money.
